

Grade Point Average (GPA) Hours

GPA hours are defined as semester hours for any course completed excluding courses with a grade of “AU” or “W.”

Calculation of Grade Point Average

The quality point average of the student is determined by multiplying the number of quality points for each grade received by the number of semester hours for that course. The total number of quality points is divided by the total grade point average (GPA) hours, excluding courses with “W” grades. Even though a course may be counted only once toward fulfillment of credit for graduation, all courses completed are reflected in the cumulative GPA. The only exceptions are in the case (s) of academic bankruptcy or courses with “W” grades. To qualify for graduation, a student must earn a 2.0 cumulative grade point average in all courses attempted at the College.
